Projects

E-commerce Project

Team Leader, Frontend Developer, UI/UX Designer | May 2024 – Present

- Leading a team in the development of an e-commerce platform, focusing on frontend development and UI/UX design.
- Managing project timelines, ensuring timely delivery of milestones and features.
- Designing intuitive and responsive user interfaces using Figma, optimizing for both desktop and mobile platforms.
- Ensuring seamless integration of frontend components with Spring Boot backend, utilizing REST APIs for data retrieval and updates. Implementing UI/UX best practices to enhance user experience and usability.
- Conducting code reviews and providing technical guidance to team members, fostering a collaborative and productive development environment.
- Technologies Used: Next.js, Tailwind CSS, Redux Toolkit, Shadcn UI, Spring Boot, PostgreSQL, Figma

World University Rankings SPA (CAPSTONE PROJECT)

Team Leader, Frontend Developer, UI/UX Designer | October 2023 - February 2024

- Developed a Single Page Application (SPA) data collection panel for World University Rankings, enhancing user experience with real-time data retrieval using React and AJAX principles.
- Implemented a responsive and user-friendly interface using Tailwind CSS.
- Designed a flexible architecture and security measures for three distinct user roles, ensuring data integrity and confidentiality.
- Created detailed user guides and documentation to assist users in navigating the application and understanding its features.
- Collaboratively developed with a team of 4 (2 frontend, 2 backend) at the special request of Istanbul Medeniyet University.
- Technologies Used: React, Tailwind CSS, Spring Boot, PostgreSQL, AJAX.

Experience

JOTFORM

UI Developer Intern | August 2023 - September 2023

- Developed and designed a custom chatbot project on the Jotform platform to facilitate seamless user interactions.
- Implemented intuitive UI design and interactive features aimed at enhancing user engagement and satisfaction.
- Designed and implemented different themes using React, Jotform CSS, HTML, Jotform API, Jotform Icons, and Figma to cater to diverse user preferences.
- Enhanced project functionality by integrating Jotform Icons for enhanced visual elements and leveraging Figma for UI/UX design and prototyping.
- Optimized chatbot performance and responsiveness across various devices and browsers, ensuring smooth operation and user satisfaction.
- Technologies Used: React, Figma, Jotform API, Jotform CSS, Jotform Icons

SOMPO JAPAN INSURANCE

Frontend Developer Intern | July 2023 – August 2023

- Replicated the functionality of Thingiverse.com using Vue, Bootstrap 5, the Thingiverse API, and Pinia.
- Ensured a seamless user experience across multiple devices by adopting a responsive design approach.
- Improved user engagement by integrating detailed project pages into the site, enhancing content accessibility and interaction.
- Implemented a Pinia store within the Vue.js framework to efficiently manage state and streamline data flow, significantly enhancing application performance.
- Technologies Used: Vue.js, Bootstrap 5, Thingiverse API, Pinia

Education

Istanbul Medeniyet University (Undergraduate transfer)

Computer Engineering | August 2021 – June 2024

- GPA: 3.0/4.0
- Member of Medeniyetekno student club

Bursa Uludag University

Computer Engineering | September 2020 – August 2021
